THE FORCE OF ARGUMENT.

All arguers are bora." wrote Voltaire, without course, but that did hinder Rousseau from lambasting Voltaire by assuming the master and style of the latter and to the world a sample of what Voltaire would have said had opportunity been offered when he was at the court of Frederick the Great in Berlin.

While Frederick made verses he also made arguments which Rousseau made a fair attack by writing for him, "arguers are bora."

There is more in the assertion to the mass of the people than is generally known. Men are few in number who can hold a promiscuous assembly while they argue an abstract question. I believe me, said my friend, one of these fellows who takes to himself the task of convincing the world by the use of logic that he is right. The larger part of the human race have no love for work, mental or physical which explains the male there is which brings repugnance to anything like argument. It is work and much of it to those engaged in the solution of philosophical and other problems.

When a solution is secured it comes to be work to listen to and follow the details of the work necessary to a solution. The work required to follow to understand argument upon questions which have required thought to make plain to the mind, makes the chief objection there is the man who argues. When a statement is made of the subject matter to be discussed and the why and wherefore are entered upon, those who are ready to vote the "bore" are ready to vote the "bore" and since they are not at liberty to call, "Put him out," they exercise the privilege of voting to them by going out.

It has been remarked, "This man is a natural worker," but upon examination it is found that it is another who is a natural worker. When a position to say this man or the other man, is a natural worker, it is present when it is found that a mistake has been made as it must be some other man whose nature has reversed by making a natural worker.

Work, physical or mental, is a result of education and not a result of uneducated nature. Mental training means mental work, and physical training means physical work. To make a man of the world he should be in life he requires education of in other words he must be educated in mental or in physical work, but it is much better to be educated in each class of work mentioned.

People who have not been trained in mental work have no taste for such work, or for any detailed accounts of results. The man who is without training in physical work will be sure to vote manual labor a bore, which is not all he will do, as he will vote to be dishonorable if he is not possessed of common sense, which it is probable he will not be if he has had no physical training.

The man who argues may disdain the man who is ready to call, "Put him out," but that does not disturb the man of muscle as he has very little respect for a man who is a bore to people who have common sense.

When a man of argument is examined in the light of popular judgment there is no difficulty connected with a proper understanding of the discipline applied to arguers by Rousseau. It may not seem consistent with truth that the man who argues seldom knows that he is a bore, but it is nevertheless true that he does not know the truth in that respect.

The arguer is so full of this theme that he cannot understand why it is that others are not interested as he is in questions his brain labors to make plain. When the arguer has learned that the force of argument has a back action to it, which forces people out of doors, or forces them to look up more pleasant quarters, he will suspend the back action to his learning in popular assemblies.

SYRUP OF FIGS

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal, laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the company printed on the front of every package.

THE LATE STORM.

Truckee Valley was visited yesterday with a rain and hail storm that may have the effect of clearing up the weather which has continued cloudy for some time. It is unusual in Nevada at this season to have clouds and cold continue for so long a time as the late disagreeable weather has covered.

Cold has been known to prevail in May under cloudless skies, but clouds and cold together do not often make an appearance. It is not learned at this writing what area the storm covered, but indications were that it is larger than is usual for May. The rain will have a refreshing effect upon grain and alfalfa fields, which are showing the effects of clouds and cold.

AFTER THE "BAWL" IS OVER.

Sunday was a fearful day in Reno. The moisture which fell from Republican eyes was too much for Jupiter Pluvius and he sympathetically followed suit next day.

Although the skies were not blue, but a dull, leaden, melancholy gray, the air beneath was made beautifully serene by curses not loud but deep. Whom they were directed at matters not.

The saddest of the sad and the maddest of the mad was the editor of a certain paper who was preparing to get out an extra containing Mr. McKinley's speech.

He used very handsome words last night in lambasting the Journal for having had the temerity to express in modified language the sentiments of four-fifths of the community.

The Gazette's editorial and local columns last evening were filled through two separate quills and failed to jibe, for the latter in a mild way reflected the Journal's previously expressed feelings.

Meanwhile the unwashed and unsophisticated Democracy wears a smile that is childlike and bland as it looks forward prophetically to the glad times when parties will again be doing.

ACROSS THE CONTINENT

The Trans-Continental Racing Machine Passes Through This City.

The much heralded and long delayed motor carriage arrived in Reno yesterday morning on its record breaking trip across the continent. It was more a machine wrenching than a record cracking expedition thus far, however.

Never before had an automobile crossed the Sierras and the two voyagers will be many years older before they again essay the trip.

The war out a week from Frisco and encountered rain or snow or both every day. Twice they were compelled to extricate their vehicle from snow or mud by means of black and tackle. One place they sprung an axle and at another they broke the steering gear. Now the worst of the road is over and much better time will doubtless be made.

The two travellers are Alexander Winton and Charles Shanks. The former owns the auto. He is president of the Winton Motorcycle Manufacturing Company of Cleveland. The latter is a member of the editorial staff of the Cleveland Plaindealer.

The trip is being made to demonstrate the qualities of the machines made by Winton. It already has the record of being the first to cross the Sierras, and Mr. Winton believes, will be the first to traverse the continent.

The men are going from San Francisco to New York. They are bearing a message from General Shafter to General Miles, who will meet them in New York.

This auto is the first that has ever invaded the State and was respectively admired and feared by people and horses. It has a speed of 32 miles an hour under favorable conditions and has a twelve horsepower motor, run by gasoline.

THE BARGAIN NOT STRUCK.

The deal that has been pending for several days for the sale of the Wedekind and Bell mines to a syndicate of Montana capitalists, is still hanging fire.

W. A. (Bluestone) Kelley is promoting the deal. The prospective purchasers are Joseph H. Clark, George Casey and C. H. Hand of Butte Montana. They have been here for the past week inspecting the two mines, taking samples, making measurements and trying to get together on figures.

It was reported on good authority last evening that there was a big difference between the figures of purchasers and sellers. One of the Montana men told a Journal reporter that the price was not the principle thing that was causing hesitation, but lack of sufficient development work to demonstrate the quantity of ore in the lead.

SPOKE THE SOLEMN VOWS.

Miss Pearl Haydon, daughter of Judge and Mrs. Haydon, and Raiston Reed of Frankton were married at 3 o'clock Sunday evening at the home of the bride's parents, No. 411 Mill street.

Only immediate relatives and the most intimate friends of the contracting parties were present. The groomsmen was George Reed. Mrs. Grace Haydon was bridesmaid. Judge H. F. Currier pronounced the solemn words that made them man and wife.

The bride and groom are two of Washoe county's estimable young people and the Journal joins their many friends in wishing them every happiness.

MASONS ATTENTION.

The Corner Stone of the free public kindergarten will be laid Wednesday afternoon at 3 o'clock by the Grand Lodge of Masons of Nevada Supreme Judge Fitzgerald presiding. All members of Reno Lodge, No. 13, F. and A. M. are requested to meet at Masonic Hall promptly at 2 p. m. By order of the Master.

SHUDDERS AT HIS PAST.

"I recall now with horror," says Mail Carrier Burnett Mann, of Levanza, O., "my three years of suffering from kidney trouble. I was hardly ever free from dull aches or aches pains in my back. To stoop or lift mail sacks made me groan. I felt tired, worn out, about ready to give up when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man. They're unrivaled to regulate stomach, Liver, Kidneys and Bowels. Purest satisfaction guaranteed." Sold by S. J. Hodgkinson.

SUSANVILLE EXCURSION

Cheap Rates Arranged for This Trip to the Capital of Lassen County.

All who desire to take advantage of the rate of one fare for the round trip, \$8.75, should call at the ticket office of the N. C. O. Ry. and make a deposit to reserve a seat in the special coach. It is necessary that the railway company should have advance in advance of the number that are going, in order that will, desire accommodations, in order that a special box car may be put on for the accommodation of their wheels, for which no extra charge will be made.

We have advice that the stage road from Hot Springs to Susanville is in excellent condition at this date. The County Commissioners having been at work on the road for several weeks past, the ride will, no doubt, be a pleasant one for all the wheelmen who decide to embrace the above opportunity for visiting the beautiful little town of Susanville.

The rate for the Wheelmen will be only one fare for the round trip between Reno and Hot Springs, namely, \$4.25.

HARK FROM THE TOMBS.

That alleged dignified and moral paper, the Gazette, in order to cover its grief and anger over the President's failure to stop at Reno, devotes an entire column to abusing the inoffensive Journal and makes the amusing claim that it was all our fault. Here's a sample of the stuff:

"It is our opinion that the Journal did its best to create the impression that McKinley would address the people here solely to get a crowd down to the train to be disappointed and give it a chance to make a sensational attack on President McKinley."

Well, how about this sentence, which appeared in double column scare type Saturday evening in the Gazette:

"The President's train will arrive in Reno at 10:45 this evening and will remain here five minutes, pulling out for Ogden at 10:50 and stopping nowhere on the way except to change engines."

The editorial writer then works himself into a blue fit and huris this sort of language up the alley: "Spite, narrow-mindedness, scurrilous, indecent, senseless, dirty, etcetera."

Verily, the Gazette person is gifted with fearful and wonderful vacuums in his humor box and think tank.

PREPARING FOR THE CARNIVAL.

Developments are coming in thick and fast in the Carnival projects, and after the Fourth of July it will be said that no such celebration was ever held in Nevada before, says the News.

New features are coming to the fore every day and the fun will be fast and furious. The Carnival Committee have had a large streamer painted to stretch across the street in front of their headquarters. The Reno Wheelmen have postponed their race with San Jose and will come to Carson and meet the Sacramento wheelmen in a race for the Pacific Coast championship. It is safe to say that over 3000 people from Reno alone will witness this and other events.

BE CAREFUL OF YOUR EYES. If your eye lids become inflamed or your eyes water or burn when reading it is almost a certain fact that you need glasses. Go to Golden's and have them examined free of charge. All glasses guaranteed.

The motor for the new electric hoist at the C. & C. shaft was brought in on Sunday night's train.

IT SAVED HIS LEG.

P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklan's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Sold by S. J. Hodgkinson.

FOUGHT FOR HIS LIFE.

"My father and sister both died of Consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and a very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for Croup, Colds, and all Throat and Lung trouble. Trial bottles free. Guaranteed bottles 50c and \$1. Sold by S. J. Hodgkinson.

A handsome wash and pen drawing poster has been made for the Reno Wheelmen to advertise their race with the Sacramento Wheelmen at Carson on July 4th. J. J. Murray is the artist.

The party who lost a pair of spectacles can locate them by referring to the fifty-cent column.

Considerable counterfeit money is in circulation in this city.

The meeting of the Woman's Guild has been postponed one week.

REPORT OF THE GRAND JURY

The grand jury has found indictments in the following cases: Willard Johnson, charged with assault with intent to kill. Ed. Kennedy, grand larceny. J. H. Boyd, grand larceny. The cases were set for trial on the 11th, 12th and 13th of June.

The attention of the grand jury had been called to the promiscuous riding of bicycles on the sidewalks in this city and the authorities were requested to enforce the law prohibiting the same.

An adjournment of the jury was had until such time as it shall be summoned by the foreman.

A RENOITE CHOSEN.

In response to the unanimous desire and request of the executive committee of the Carson City Carnival and Street Fair, Hon. P. L. Flanagan, of Reno, has consented to accept the position of Grand Marshal of the celebration.

Secretary of State Howell was selected to visit Mr. Flanagan and induce him to accept, which was accomplished.

Mr. Flanagan is just the man for the position and he will assist Carson in welcoming visitors from other places, and Carson in turn will endeavor to insure the Grand Marshal that he will have a good time and enjoy the occasion. No better selection could have been made.
